INTRODUCTORY.

WE HEREWITH present to our patrons our second volume of the Bloomington and Normal City Directory, and first volume of the McLean County Directory. We have retained all the new features in our last issue and have added the County and bound the work in cloth embossed.

The County Directory will be found very complete. It is indexed and arranged by townships. The information was not taken from the records, but by a house to house canvass. The county being so large has made it very expensive, forty different persons having been engaged in canvassing. The residents are located on the section of land they live on or the village in which they live. With our County Map they can be found as readily as persons living in the city. Owners of real estate, as listed by assessors, are designated by a star.

The number of names in city directory is 12156. Deducting 1150 names belonging to Normal, leaves Bloomington 11006, which multiplied by only two would make the population 22012. Bloomington in the past two years has added several fine business blocks and a great many handsome residences to her already large number of buildings.

We have aimed to make this directory as complete as possible. It is a good index of this great county, the largest and wealthiest in the state outside of Cook county. It is a handsome volume, and one that any city can be proud of, especially as it is strictly a Bloomington institution.

We shall, as we did two years ago, advertise the city by placing a copy of this excellent work in every leading hotel within sixty miles of Bloomington.

Thanking the public for their patronage and asking a continuance of same, we remain
Very truly,

PANTAGRAPH PRINTING AND STATIONERY CO.,
